Consolidated Skype for Business / Cloud PBX Appliance's

On-premise business communication solutions from NCS, powered by Microsoft Skype for Business, providing IM/ Presence, Voice and Video calling, Multi-party Voice and Video Conferencing, Collaboration through Online Meetings, Document Sharing, Mobility, and more!

- Cloud managed all-in-one Skype for Business Server solutions. Virtualize all Skype for Business Server roles and functions and run them on a single dedicated integrated gateway appliance, 1U high server, or customer-supplied Hyper-V or VMware environment
- Small form factor and scalable—A gateway appliance for under 200 users and standards based Server appliances for up to 5000 users—ideal for small and mid-sized businesses!

- High Availability (HA) and Survivable Branch Appliance (SBA) options
- Plug & Play—simple to set up, easy to use, easy to maintain
- Reduce complexity, licensing, hardware and support costs vs. traditional deployments
- Leverage Office 365 (E1, E3 & E5) and Microsoft enterprise license agreements (EA) and entitlements
- NCS Connect Cloud Managed Services for 7/24/365 remote system monitoring, back-up and restore, configuration, administration, patching and updates

About National Communications Services, Inc.

Established in 1990 and headquartered in Bellevue, WA, NCS combines their telephony experience in traditional PBX and Key phone systems with their data infrastructure and cloud or server based Skype for Business and Exchange expertise. Our team designs, implements and supports modern unified communications solutions.

NCS can also help you deliver your IT communications and infrastructure projects on-time and within budget through our Staff Augmentation and Managed services. We offer a variety of services including help desk, server and tool deployment, project management, process automation, and project implementation. Use our team to augment your staff on Skype for Business, Exchange, SharePoint, Windows Server and Office 365 deployments, infrastructure, desktop, end-user training or remote or onsite break/fix services. We have the right resource to meet your requirements—whether on a part time or full time basis.

With numerous certified resources on staff, we are a Managed Microsoft Partner with the highest level of certification (Gold Competency) in Communications and Microsoft's Cloud Productivity distinction as an online services partner. These Microsoft Certifications place us in the top 1% of all Microsoft US Partner organizations. When you choose NCS, you've partnered with a trusted IT solution provider who has over 20 years of proven expertise in delighting corporate customers.

Let us help your business excel in the new economy by reducing costs, increasing employee productivity, and providing affordable, best-in-class technology and staffing solutions.
